Safety

Our Most **Vulnerable** Users Are Those Who **Walk & Ride**

2022 Statistics

Volusia County

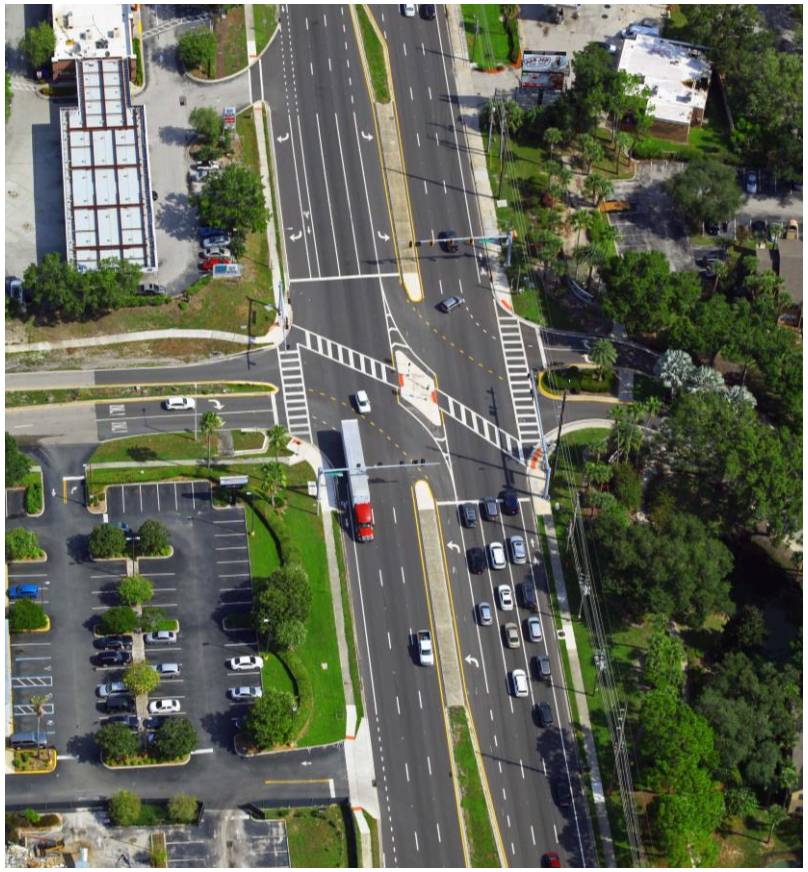
542 Bicycle and Pedestrian Crashes
(6% of total)

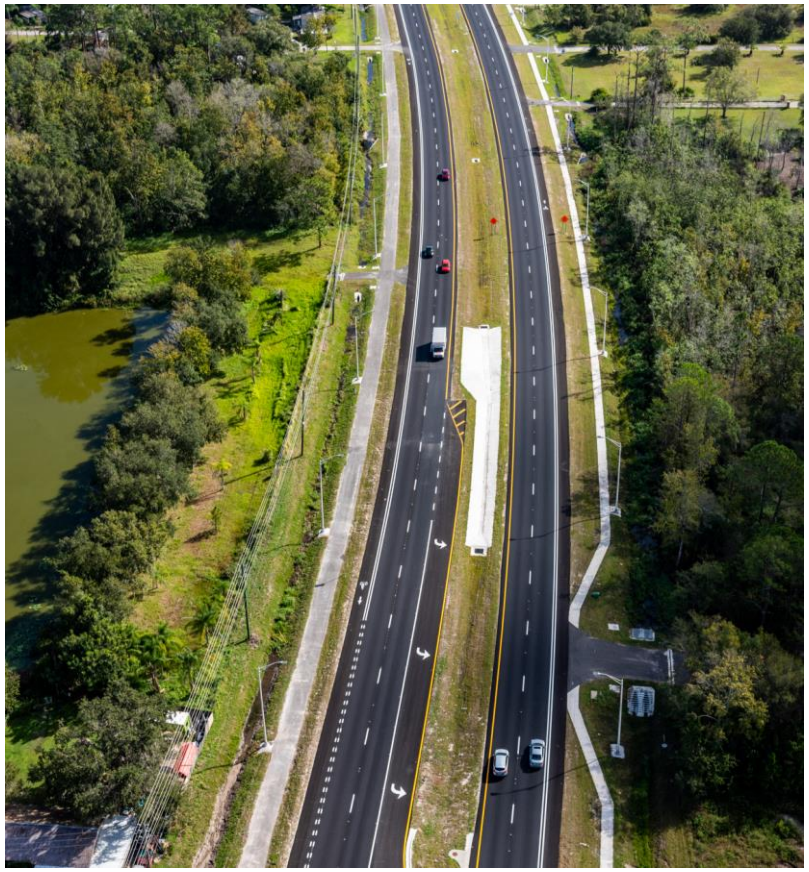
23 of these resulted in death (21% of total)

FDOT District Five

3353 Bicycle and Pedestrian Crashes
(5% of total)

193 of these resulted in death
(27% of total)





Every Project is a Safety Project

FDOT

Trail Projects

District Five

- 27 Projects let since 2019
- 9 Projects to be let in 2023
- $124,067,359
- 61.62 Miles

Volusia County

- 8 Projects let since 2019
- 2 Projects to be let in 2023
- $7,706,876
- 9.58 Miles

Trails Increase Mobility, Enhance Economic Prosperity & Improve Quality of Life

Trail Projects

SUN Trail Network = 275 Existing Miles

Plus 160 Miles Funded for Engineering or in Pre-Construction

December 2022

- 8 new SUN Trail applications received for about 30 miles of additional trail along the St. John's River-to-Sea Loop ($70 million total)

Sampling of Projects in Development

- South Sumter Trail & Connector
- South Lake Connector
- Orange County Gap
- East Central Regional Rail Trail Connector

SUN Trail Funding Fact Sheet

Spring-to-Spring Trail
DeLeon Springs

St Johns River2Sea Loop

The Shared-Use Nonmotorized (SUN) Trail program awarded over $1.7 million for the design, acquisition of right-of-way and construction of the Spring-to-Spring Trail in DeLeon Springs, near Glenwood. This project extends the existing trail by 1.3 miles along West Baxter Street, Ponce DeLeon Boulevard and Spring Garden Avenue to State Road 15/U.S. Highway 17. The 136-acre nearby Chuck Lennon Park provides parking, restrooms, covered pavilions and grills, playgrounds, ballfields and ballcourts, multi-purpose fields, and a 10-mile singletrack bicycle trail system with opportunities for nearly all skill levels. Volusia county received a matching fund grant from the Florida Department of Environmental Protection's Florida Recreation Development Assistance Program for the building the facilities at Chuck Lennon Park, which is adjacent to DeLeon Springs State Park. Once called Acuera, or "Healing Waters", by Mayaca Indians who inhabited the area, the clear blue DeLeon Springs is popular for swimming.

Established during the 2015 legislative session and administered by the Florida Department of Transportation (FDOT), the SUN Trail program receives an annual allocation from new vehicle tag revenues, to help communities develop high priority (strategic) paved multi-use trail corridors and connections (SUN Trail

vision of the Florida Transportation Plan, which guides the state's transportation future, and have the ability to reduce incidents with vulnerable road users, enhance safety and improve mobility while enhancing communities and the environment. The resulting improvements to interregional connectivity ensure the SUN Trail network functions as a transportation system rather than standalone trails which increases the reliability of Florida's transportation system. FDOT is dedicated to building a safe and efficient multimodal transportation infrastructure that will fit the diverse needs of its growing population for decades to come. This project is a contributing resource to the following networks:

- **St. Johns River-to-Sea Loop, which is a developing 260-mile regional trail system that will link the Tri-County Agritourism Corridor to the Space Coast.**
  See: www.sjr2c.org
- **A complementary route of the East Coast Greenway, which is a developing 3,000-mile national trail system that will link communities along the eastern seaboard from Key West, Florida to Calais, Maine.**

TRAIL

FDOT DISTRICT NUMBER: 5
CITIES: DeBary and Sanford
COUNTIES: Volusia and Seminole
WIDTH: 10 feet
LENGTH: 0.531 miles
SURFACE TYPE: Asphalt

PROJECT

FINANCIAL MANAGEMENT (ITEM) NUMBER: 436434-1
LIMITS: Built along U.S. 17/92 over the St. Johns River connecting Lake Monroe Wayside Park (Seminole county) and Lake Monroe Park and Campground (Volusia county).
CONSTRUCTION START: June 2017
CONSTRUCTION COMPLETION: May 2018
PHASE: Construction

FUNDING

FISCAL YEAR: 2017
AMOUNT: $1,800,000 was awarded by the SUN Trail program. Within the project boundary, an additional $2,644,336 was provided by FDOT beginning in 2015.
